Behind The scenes

The screenshot shows a video editing application with a dark theme. At the top, there's a navigation bar with icons for file operations, a search bar, and font settings (Font: Baskerville, Size: 200). Below the navigation bar is an 'AUDIO' section with tabs for Music, Sound Effects, and GarageBand. A message says 'Select an item from the list to view the audio waveform.' Below this is a table with columns for Name, Time, Genre, Artist, and Album. A note at the bottom states '⚠ 2158 files are unplayable and unavailable'. The main area is the timeline, which displays several video clips. One clip is labeled '4.0s – Who did everything together' and another is '4.0s – Once had'. The timeline also includes audio tracks: '11.8s – Jazzy Downtempo' (green bar) and '10.7s – Mastermind' (blue bar). On the right side of the timeline, there are preview windows for each clip, showing two people in a library setting. The bottom right corner of the preview window contains the text 'Once had an idea'.
